

# Elektra Beckum & Metabo TKHS315M Site Saw

## TKHS315M

### Elektra Beckum & Metabo TKHS315M Site Saw Technical Details

- Cutting height up to 85 mm: The easy to use crank and clear graduated scale allow for a step less height adjustment of the saw blade from 0-85 mm (at 90°).
- Large table rear extension (794 x 510 mm): The table length can be easily folded down.
- Induction motor: strong and reliable 2.5 kW induction motor
- Freely adjustable tilt of the blade up to 46.5°: The saw blade can be easily and precisely angled using the large convenient handle. The carbide-tipped 24 tooth blade supplied as standard guarantees the best possible cut.
- High-quality cross-cut and mitre fence: This robust guide allows the work piece to travel smoothly and accurately for precise mitre and cross cutting.
- High-quality cam-lock parallel fence: A scale shows you the exact required distance to the saw blade.
- Expertly pre-assembled: Quick set-up: the frame and table extension can be easily fitted.
- 100% compliance with European DIN 1870-1

### Technical data:

Dimensions L x W x H 1700 x 750 x 1000 mm

Table size L x W 800 x 600 mm

Table extension L x W 794 x 510 mm

Saw blade HW 315/30 mm 24 WZ

Cutting speed approx. 47 m/s (idle)

Adjustment

Cutting height at 90°/45°

Inclination 0-85 mm/0-60 mm

90°-45°

Net/gross weight 64 kg/71 kg

Power supply 240 V

Chip and dust extractor unit Standard

Motor power 2.5 kW
